Survey made for Dan Bollenbough  
April 1<sup>st</sup> 1892, for the purpose of  
establishing the south boundary line of  
the W. L. Colvig Donation land claim  
No 50 in T. 30, S. R. 5-9<sup>th</sup>,  
having the original field notes I made  
examination for the S.E. corner and  
found that the original B.T. had been  
cut down or destroyed and being in  
doubt as to the true corner I went to  
the S.W. corner and found that the original  
B.T. had been cut down and <sup>could</sup> not be  
identified by me I went to the quarter  
post or corner ~~was~~ between sec 27 & 28  
and measured south 5.78 ch the distance  
called for and being still in doubt  
I went to quarter post on line between  
Sec 28 & 33. I found one of the original  
B.T. standing I reestablished the post and  
measured north from this corner 33.37 ch  
and west 1.72 ch that being the distance  
called for and established corner of the  
S.W. corner of the Colvig Donation cl 50  
I then measured east on south boundary  
line of cl No 50 - on bar 19<sup>o</sup> E
